***"Psycho-dynamics of the spirit constitutes the foundation of Be-ness."*** (*Infinity I, verse 64*)

**Psycho-dynamics is the life a soul lives as he goes toward his destination. There are many sides and levels to the psycho-dynamics of our spirit. We must advance in psycho-dynamics as we become more soul and an expression of the potentials of the soul. Unless we do this, there is no progress.**

**The Master tells us that the psycho-life in the atom is the spark created by spirit and matter. The more a person grows as a soul, the more he contacts the Cosmic energies.**

**Psycho-dynamics are those fiery urges, drives, and instincts that tie a person with the Cosmic dynamics and the potential of the Cosmic Magnet.**
